THE SCIENCE OF READING & MATH

Professional Learning Workshops

A full-day of research-based workshops designed to equip educators with proven, classroom-ready strategies grounded in cognitive science. Select the workshop that best aligns with your instructional focus.

Teach Like a **CHAMPION**®

THE SCIENCE OF READING

Led by Teach Like a Champion, this session explores what the science of reading indicates should happen in literacy classes after effective phonics in the early grades, including strategies to build knowledge, create reading communities, and use writing to drive growth.

Florida Charter
Institute

THE SCIENCE OF MATH

Led by the Florida Charter Institute, this session explores how students learn math and what effective instruction should include, with strategies for developing fluency, using explicit instruction and examples, building mathematical thinking, and structuring effective practice.
